

ATTENTION

YOUTH WITH TYPE 1 DIABETES AGES 18-26

Join the Advisory Board...Your Voice Matters!

The **Diabetes Wraparound Program of UPMC Children's Hospital of Pittsburgh** is seeking interested young adults ages 18-26 who are currently managing their Type 1 Diabetes (T1D), to become part of an Advisory Board. Meetings will be monthly and all expenses, plus a stipend for your time will be provided. This is a competitive process and only seven youth will be selected.

For more information and an application, go to:

www.yftipa.org/diabetes

The purpose of this Advisory Board is to oversee the development, implementation and management of the new Diabetes Wraparound Program of UPMC Children's Hospital.

The goal of this program is to:

- Develop, implement, test, and refine innovative ways to support youth (ages 12-15) with T1D and their families recognizing that youth and families experience many stressors related to T1D management.
- Address and remove barriers to achieve successful living with T1D.

Please submit your application by Friday, Oct. 19.
