Introduction
The Child and Adolescent Bipolar Spectrum Services (CABS) of WPIC is proud to present a second conference on “Evidence-Based Therapy and Assessment Approaches for Bipolar Spectrum Disorders in Youth.” There is limited knowledge about how to screen and monitor mood swings in youth and how to initiate effective therapy interventions. Correct diagnosis and early interventions in youth with bipolar spectrum disorders are critical. CABS faculty and staff will present information regarding the psychosocial management for youth with bipolar spectrum disorders including family therapy, cognitive behavior therapy, motivational interviewing, and ways to enhance treatment adherence. In addition, they will discuss diagnostic assessment challenges, issues regarding pharmacotherapy, and services available in the community and school interventions.

The keynote presentation will be given by David Miklowitz, PhD, a Professor of Psychiatry in the Division of Child and Adolescent Psychiatry at the UCLA Semel Institute, and a Senior Clinical Research Fellow in the Department of Psychiatry at Oxford University. In addition, Dr. Miklowitz will host a luncheon question and answer session for family members and youth with bipolar spectrum disorders.

Judith Cohen, MD, an expert in trauma will present the treatment of youth with bipolar and history of trauma and Tina Goldstein, PhD an expert in the psychosocial treatments for bipolar youth, will present Motivational Interviewing.

Who Should Attend
The conference is designed to present the latest research and clinical knowledge regarding Bipolar Spectrum Disorders to a wide audience: Professionals (psychiatrists, psychologists, counselors, psychopharmacologists, physician assistants working in mental health settings, psychiatric nurse practitioners, psychiatric nurses, social workers, teachers, and peer specialists), as well as, patients and their families.

Objectives
At the conclusion of the program, participants should be able to:
- Identify the symptoms and assessment methods for youth with Bipolar Spectrum Disorder
- Identify psychosocial and pharmacological treatments and ways to enhance adherence for youth with Bipolar Spectrum Disorders
- Identify Behavioral Health and School Services available for youth with Bipolar Spectrum Disorders and their families
